

Como hacer unstake de nuestras Thetas o Tfuels.

notas

- Thetaboard recomienda hacer este proceso usando un PC/MAC.

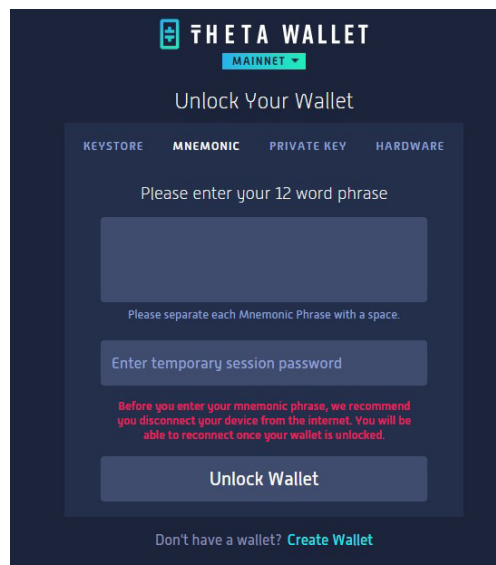

PASO 1

Vamos a <https://www.thetatoken.org/> y clickamos en WALLET

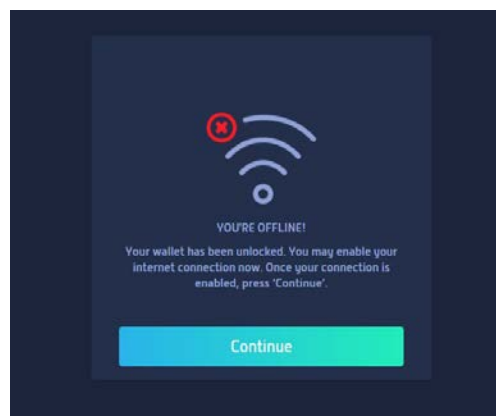

PASO 2

Abrimos nuestra wallet dependiendo de nuestro modo habitual de hacerlo hardware, keystore...

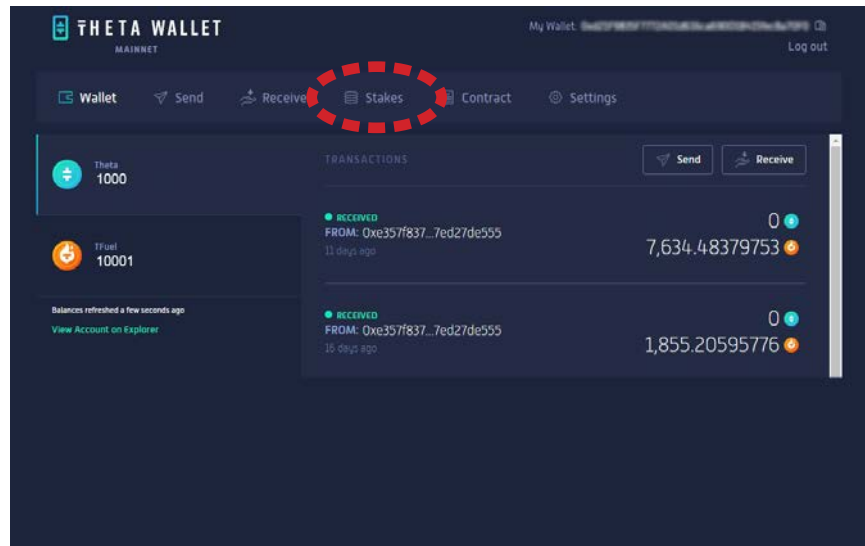

Si usamos el método de desbloqueo por medio de las 12 palabras clave, desconectamos de internet, y desbloqueamos la wallet.

En la siguiente pantalla, volvemos a conectarnos a internet.

PASO 3

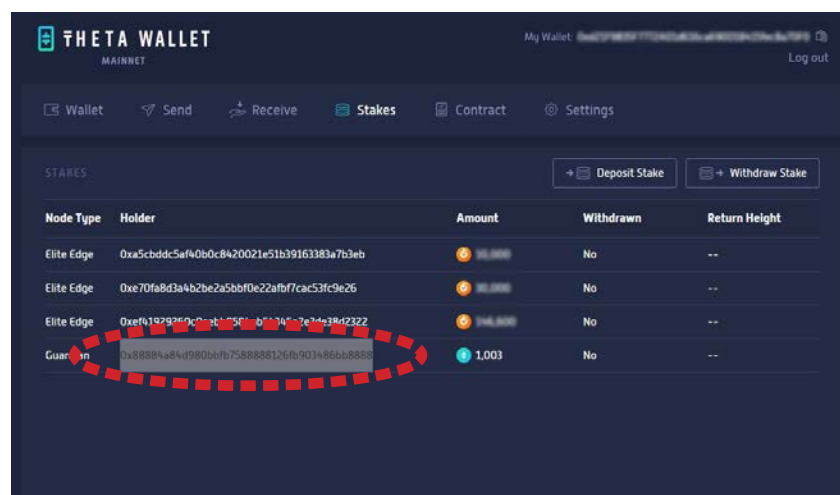

Clickamos en stakes.

PASO 4

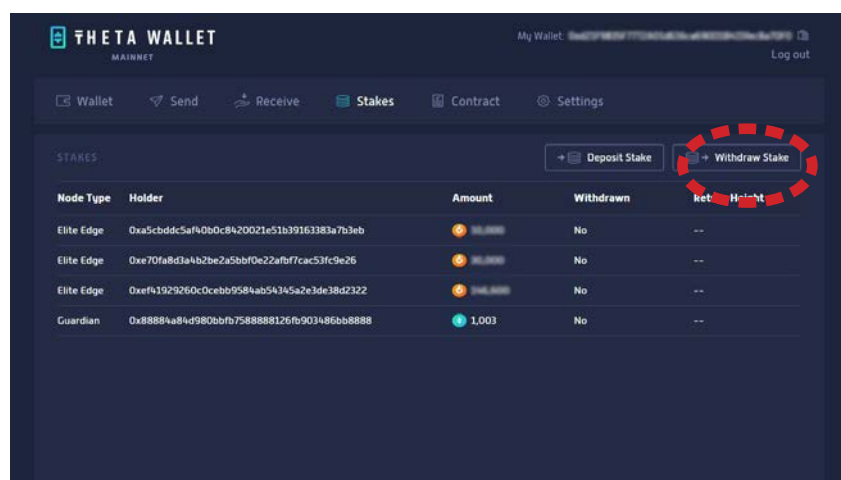

El procedimiento es el mismo, tanto para unstake de Thetas que para Tfuels.

Seleccionamos y copiamos la Holder address de la que queremos hacer unstake.

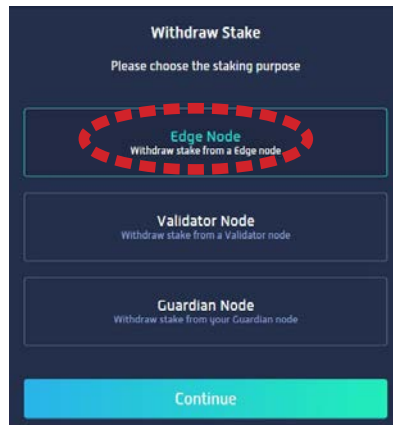

PASO 5

Seleccionamos Withdraw stake.

PASO 6

Seleccionamos Edge node (Tfuels) o Guardian node (Thetas) dependiendo del token que vayamos a hacer unstake y damos a continuar.

Withdraw Stake

Please choose the staking purpose

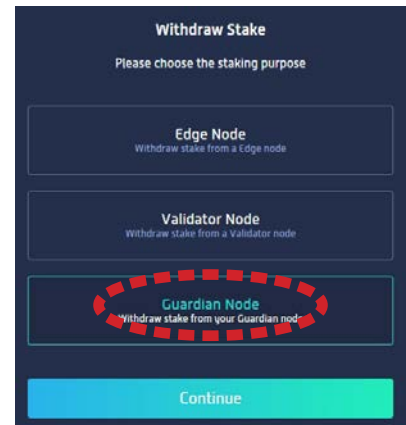

Edge Node
Withdraw stake from a Edge node

Validator Node
Withdraw stake from a Validator node

Guardian Node
Withdraw stake from your Guardian node

Continue

OR

Withdraw Stake

Please choose the staking purpose

Edge Node
Withdraw stake from a Edge node

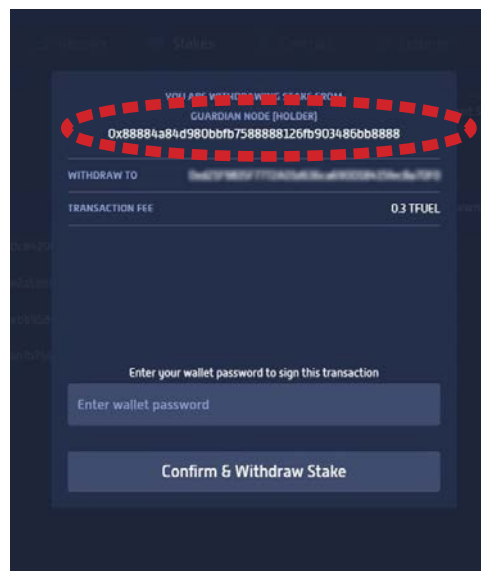

Validator Node
Withdraw stake from a Validator node

Guardian Node
Withdraw stake from your Guardian node

Continue

PASO 7

Pegamos la holder address que copiamos anteriormente.

Stakes
