How to stake your Theta to a Delegated Guardian Node

notes

- Thetaboard supports always opening your Theta Wallet using the available link at the top of https://www.thetatoken.org/ to avoid following scam links.

- Thetaboard also recommends using a laptop/pc where available for the staking process as it requires having multiple browser tabs open.

- You should have a minimum of 1000 Theta to stake, and at least 0.3 Tfuel in your Theta Wallet for transaction fees.

STEP 1

OPTION A

If you plan on staking between 1,000 and 10,000 Theta tokens, the whole process can be done inside your Theta Wallet. Go to STEP 2
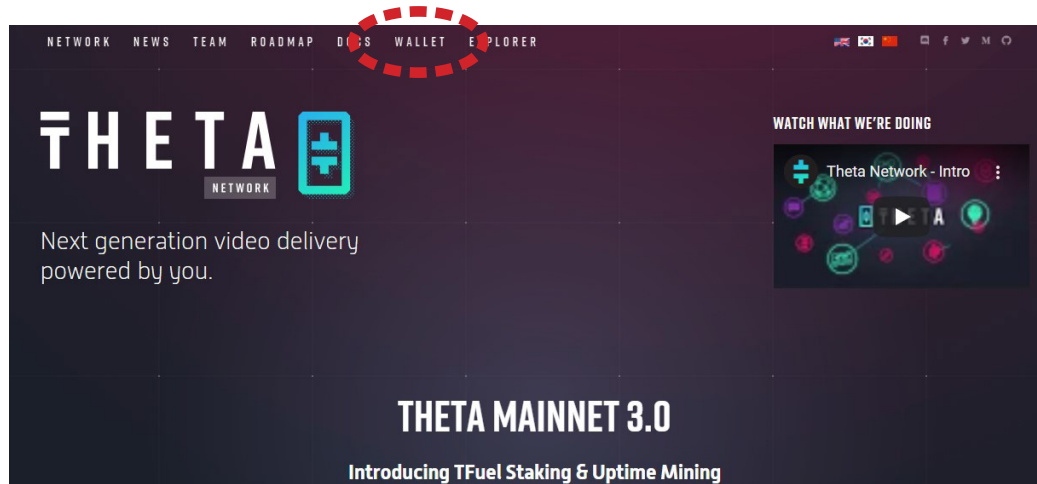

OPTION B

If you plan on staking over 10,000 Theta tokens, visit https://thetaboard.io/ select the THETA page, and then open another browser window.
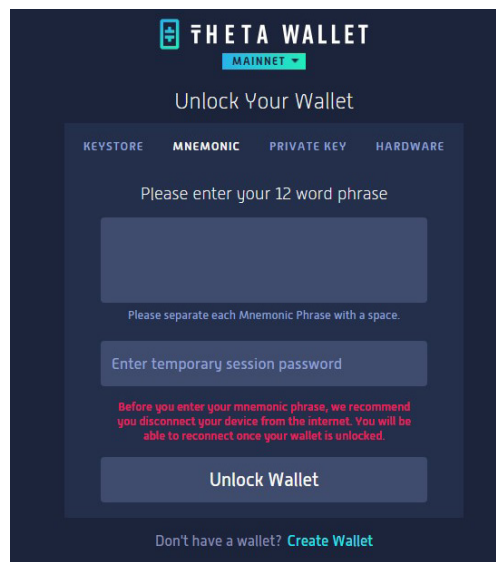

STEP 2

Visit https://www.thetatoken.org/ and click on the wallet link

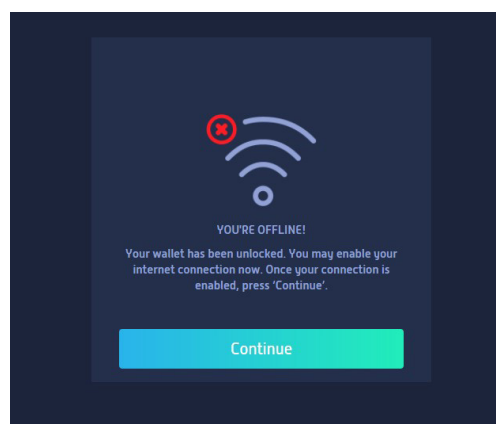

STEP 3
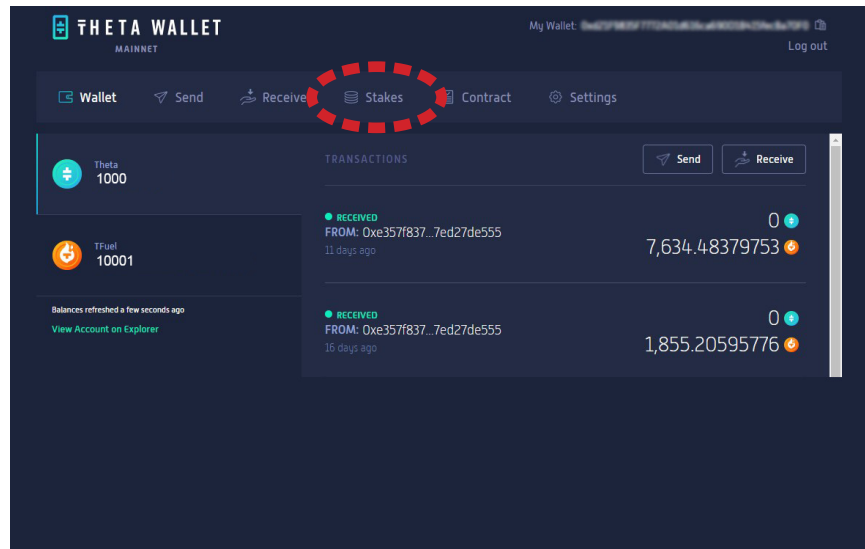

Open your wallet with your preferred method.

If using your 12 word mnemonic, please disconnect your internet, then enter your 12 words, a password for this session, and click UNLOCK WALLET.

Then reconnect your internet on the next page.
